The Automated Biometric Identification System (ABIS) RFP was released in June 2025, and vendor proposals were received on November 13, 2025. This ABIS will replace the current ABIS, which is known as the Multimodal Biometric Identification System (MBIS).

This year, LACRIS will approach the Los Angeles County Board of Supervisors to request approval of a vehicle license fee adjustment, which fund LACRIS operations. To achieve this, LACRIS is utilizing Strategic Leadership Consultants (SLC), led by John Perez (Pasadena Chief of Police (Retired)), to provide strategic advice, advocacy, implementation, and stakeholder engagement services.

IV. **ACTION ITEMS**

A. **Authorization for Funding Approval to Enter into Agreement with the Winning Request for Proposal Vendor to Provide the Regional Photo System (RPS)**

On February 16, 2024, the County of Los Angeles released a Request for Proposal (RFP) for the Regional Photo System (RPS), a new Countywide solution intended to replace the Los Angeles Photo Manager (LAPH) system, which has been in use since 2008.

Following a comprehensive and competitive evaluation process, the County's purchase process identified a proposer that meets LACRIS' functional, technical, and operational requirements for the RPS.

The total contract amount includes a 20% pool dollar allowance to support change orders, services, and support needs that may arise during the contract term and are not specifically identified at this time.

LACRIS has requested RAN Board approval to utilize AFIS funds for the entire 10-year Agreement term (initially 6 years, with four optional 1-year terms) with utilization of Pool Dollars for Optional Work, at a total amount not to exceed \$18,000,000.
